

# Ear-notching System To Identify Litters and Pigs in Litter

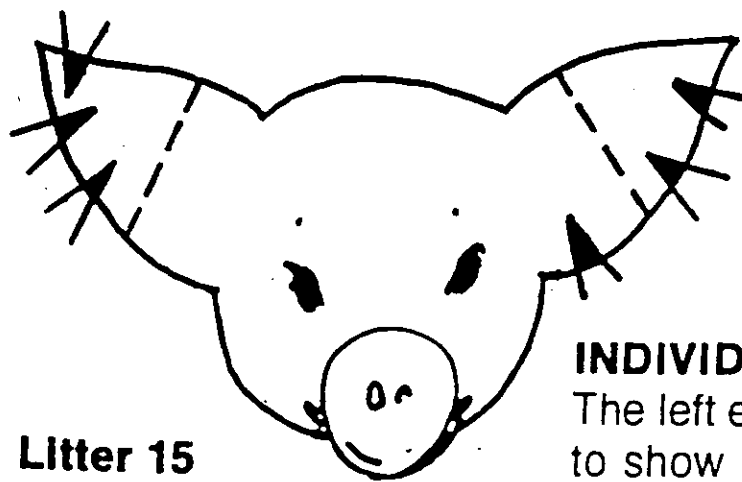

## EXAMPLES

**Litter 4  
Pig 1**

Ear Notch #4-1

**LITTER MARK:** The right ear is used for the litter mark. All pigs in the same litter must have the same ear notches in this ear. The right ear is on the pig's own right.

**Litter 15  
Pig 7**

Ear Notch #15-7

**INDIVIDUAL PIG MARKS:** The left ear is used for notches to show individual pig number in the litter. Each pig will have different notches in this ear.
