

## OSU EXTENSION Crawford County

# Nutrient Management Field Day Fertilizer Certification

Covers all Applicators with or without a Pesticide License

Come join us for an afternoon of education in the field as we become certified in Fertilizer application. If you farm over 50 acres and apply your own fertilizer even if it's just side dressing corn you will need a fertilizer applicator certification. We will be in the field for the day looking at a few different application practices and methods for nutrient management. Since we will be in the field for the afternoon feel free to bring a folding chair.

The program will be brought to you by the Agriculture and Natural Resource Educators in the Erie Basin from Crawford, Huron, Erie, and Sandusky counties.
